

How to Update Your Online Provider Profile

The first step to providing excellent care is ensuring the right patients can find you.

www.CUdoctors.com

Login

Click the [Update My Profile](#) link in the footer of any www.CUdoctors.com webpage to login with your UC Denver account. Please note that you won't be able to update your profile until you've reached your official start date at the CU School of Medicine.

Required Data

The following fields need to be maintained to make your profile useful to patients and referring providers.

- Practice Location(s) – select your specific clinic if you work in a larger care facility
- Hospital Affiliation(s)
- Specialties
- Clinic Phone Number(s)
- Graduate and/or Medical School Degrees

Please note, your credentials and academic titles are maintained at the department level via the CU SOM faculty affairs office. Email SOMSupport@ucdenver.edu to request credential and academic title changes.

Highly Recommended

The following fields allow you highlight your areas of expertise and help patients and providers find you via online search results. Please include any key words you want to be associated with.

- Care Philosophy
- Conditions & Treatments
- Clinical Interests for Patients
- Personal Interests

Profile Activation

CU Doctors utilizes an automated process to enable and make your profile searchable and available to the public. Email WebHelp@CUmedicine.us if you are not showing up in search results or if you'd like to "opt out" of having a public facing, online provider profile.

Affiliated Websites

Your CU Doctors profile data is stored in the CU School of Medicine's Faculty Information System (FIMS) and further utilized to share your profile data with UHealth and Children's Colorado (i.e. for their online provider profiles). Your profile data is also utilized to help maintain insurance provider rosters via CU Medicine.

Contact

Email WebHelp@CUmedicine.us to schedule a free profile photo session or ask questions about your profile(s).
